

Judges Needed For Science Engineering Fair March 2, 2012

On March 2, 2012 the 53rd Science Engineering Fair of Houston judging will take place at the George R. Brown Convention Center – Hall D, where Houston area teenagers and the nation's future are showcased.

South Texas Section is requesting your time and interest to assist in listening and judging the high school science projects. This presentation is the culmination of all the high school science fairs in the Houston area, the best of the best. The length of time and concentrated effort exhibited by these young people will be evident from their projects.

Please consider taking this opportunity to participate, it is a real learning experience for the youngsters and for yourself. Please reference the attached link:

<http://hunstem.uhd.edu/SEFH/>

Please indicate your interest by return email or phone call and make a note in your calendar for the evening (6:30 pm to 9:30 pm) of March 2, 2012. If you can spare a few hours earlier, I can use your help to pre-screen all of the categories for specific mechanical engineering related projects.

**Thank you.
Paul Yamarick
Chairman Science Engineering Fair
